Sir,

Subject: Medical treatment - Headquarters Hospital, Mangalore - Payment for taking X-Ray photographs at the private X-Ray Institute - Enhancement of rates requested.

Reference: G.O. No. Ms. 3323 P.H. dated 26-7-1940.

The Government have in their above order sanctioned the payment to the private X-Ray Institute (Electro Medical and Surgical Hall and the X-Ray Institute) Mangalore at the rates given below for taking X-Ray photographs of indigent patients sent from the Headquarters Hospital, Mangalore.

1.	Skiagrams of Bones and Joints Upper and Lower Extremities.	Rs. 5--0--0
2.	Skiagrams of Vicera of Thorax and Abdomen; skiagrams of Vertibrae, Pelvis, Skull, etc.	Rs. 7--8--0
3.	A series of four pictures with Barium Meal.	Rs. 25--0--0
4.	Flourscopic Examinations.	Rs. 3--8--0

(P.T.O.)

2/ It has been represented by the private X-Ray Institute that the prices of X-Ray films and all materials have gone up further high and that deterioration of films is quicker in the moist climate of Mangalore. The Institute states that it is not possible for them to continue at the scheduled rates, and requests that the rates should be revised as follows:-

A

1. Joints and extremity bones.	Rs. 8--0--0
2. Viscera of the thorax and abdomen, bones of skull, pelvis and spine.	Rs. 10--0--0
3. Barium meal series of four pictures.	Rs. 35--0--0
4. Screening.	Rs. 3--0--0

3/ The District Medical Officer, South Kanara, reports that, considering the enhanced prices of materials prevailing at the present time, the rates are reasonable and may be accepted for the duration of the war. In view of the above, I consider that the rates asked for by the Institute are reasonable, and recommend them for the acceptance of Government for the duration of the war.

It is now reported that these rates are low as the prices of X-Ray materials have gone up on account of war. The Govt therefore approve the revised rates proposed by the S.G. and shown in the appendix to this order.

2 The S.G. should submit proposals for a reduction of the rates now sanctioned when the prices of films and other x Ray materials reach the normal level.
